IBS PLATINUM

SPIRAL FLUTE STEP DRILLS
 ANOTHER STEP UP IN
 CUTTING TOOLS!

Longer life / faster holes

135° split point tip for
 faster starts

Spiral flutes for
 faster drilling

Longer steps for
 control and precision

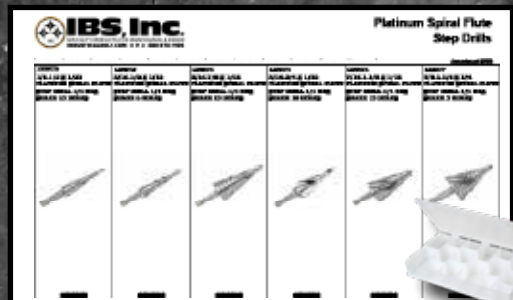

1/4" shanks fits
 impact drivers

- Split point design eliminates walking for accurate and quick-starting without the use of a center punch - (even on round surfaces) - fewer steps saves time.
- 135° split point takes a smaller chip, uses less torque and minimizes heat build up for longer life.
- Spiral flute removes chips for faster cuts and drilling.
- Impact rated shaft allows for use with impact drivers and standard drills.
- Laser markings are easy to read for quick size identification.
- For use on various sheet materials up to 1/8" thick.
- Applications Include: junction boxes, switch boxes, metal studs, electrical applications, lighting fixtures, auto-body work and many other uses.
