FEATURES & BENEFITS

- Seals out moisture causing corrosion — for a better connection and longer life.
- Heat-less / solderless connection for ease of use and safety because no flame is required.
- Patented anerobic technology — adhesive is activated when wire is inserted for maximum strength.
- Simply strip and crimp for a fast, economical connection.
- Installs in a fraction of the time of comparable heat shrink terminals —saving time and money.
- No heat tools required, making it a faster, safer connection.
- Nylon insulation for superior protection and life.
- 99.9% ETP copper terminal for maximum connectivity.
