HYBRID PVC AIR HOSE

with 1/4" MPT Hose Ends

Yellow Belly® PVC Air Hose is constructed of super flexible, lightweight yet very durable PVC material, making it an excellent alternative to traditional rubber air hose.

- **Lightweight** — Half of the weight of traditional rubber hose makes it easier to work with.
- **Stays Flexible** in cold weather down to -40°F makes it ideal for colder outdoor environments.
- **Lays flat** on the ground and resists kinking for safer use with less chance of tripping over or getting caught.
- **Lightweight** than traditional rubber air hose — 300 psi vs 200 psi.
- **Bright yellow color** makes for improved shop safety.
- **Durable & Flexible.**
