EDGE FLAP CERAMIC ROLOC DISC ASSORTMENT

IBS No. 819R • 10 Items • 22 Pcs

Packaged in a Locking Steel Drawer for Easy Storage & Organization

Edge Flap Discs can grind on the face and the curved edge of the wheel for maximum coverage and versatility. Available in 2" & 3" Roloc™ Quick Change design and in 4-1/2" diameter for use on Angle Grinders.

- These **innovative** wheels grind on the face and the curved edge design make these discs extremely **versatile and effective** when cleaning up surfaces with **curved edges** such as fillet welds and other internal corners. **No need to change to a different disc or wear out the edge of a flat disc — saving time and money.**
- Made with **ceramic abrasive grains**, which means these wheels are **extremely aggressive and effective** on a variety of materials, including **stainless steel** for maximum life and value.
- **NOTE:** When choosing a Roloc Quick Change backing pad for these uniquely designed abrasive wheels, 2" discs use a 1-1/2" backing pad and 3" discs use a 2" backing pad.

DEMOLITION TOOL IBS No. CA82218

Bend and straighten boards or pull nails with a wrecking bar that's as versatile as it is durable. This do-it-all demo tool features the patented, industry-leading IsoCore™ Shock Control System.

- Wrecking bar with IsoCore™ Shock Control System transfers 2X less shock and vibration than wood handles, reducing the punishment your body takes.
- Board bender and straightener to reuse and straighten boards.
- Extended length for greater leverage.
- Chisel & pry bar to easily remove tile, striking face for pounding.
- Demo edge maximizes striking force.
- Striking and struck face allow you to position the pry and strike it to target tight spaces.
- Claw for easily pulling nails.
- Full lifetime manufacturers warranty.
