

HI-FLO Series Couplers & Plugs

Hi-Flo series couplers and plugs are engineered to allow twice the flow of comparably-sized standard couplers and plugs. The flow rates on the 1/4" size are greater than many 3/8" body size couplers. Increased air flow results in greater tool efficiency and decreased air costs.

Ideal for High Volume and Low Pressure applications such as drills, grinders, sprayers and impact guns.

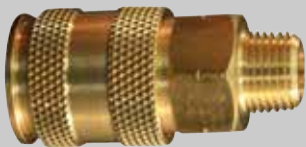

- Hi-Flo couplers will accept INDUSTRIAL and ARO style plugs — however to retain maximum flow, use Hi-Flo style plugs.
- Maximum inlet pressure: 300 PSI
- Maximum temperature: 250°F
- Air Flow: 40 SCFM @ 100 PSI
- Seals: Buna-N

HI-FLO Series Couplers & Plugs

MALE COUPLERS

NPT End Size	Body Size 1/4"	Qty
1/4" MPT	C91	5
3/8" MPT	C91-03	5

FEMALE COUPLERS

NPT End Size	Body Size 1/4"	Qty
1/4" FPT	C90	5
3/8" FPT	C90-23	5

MALE PLUGS

NPT End Size	Body Size 1/4"	Qty
1/4" MPT	CP91	5
3/8" MPT	CP91-03	5

FEMALE PLUGS

NPT End Size	Body Size 1/4"	Qty
1/4" FPT	CP90	5
3/8" FPT	CP90-23	5
