REUSABLE RESPIRATOR

Low Profile

- **UNIQUE KIND OF COMFORT** — its ergonomic shape provides maximum visibility to wearers, can safely be worn with goggles, helmets, and hearing protection. Fits perfectly to the face, without hindering the user ensures the greatest possible field of vision during use.
- **HEPA EFFICIENCY PROTECTION** — The use of HESPA® filter media ensures high efficiency of 99.97% or higher at 0.3 microns particle size.
- **LOW BREATHING RESISTANCE** — designed to be the smallest, lightest filters with the lowest breathing resistance to that of a similar size particulate filters means less resistance to air flow, ensuring less fatigue for the user.
- **SOFT and LIGHTWEIGHT** — one of the lightest on the market in its class allows the mask to create a perfect seal to the face.
- **HYPOALLERGENIC MATERIALS** — the materials that make up the mask are odorless and hypoallergenic, latex and silicone-free and conform to ISO 10993-10:200.
- **REPLACEABLE FILTERS** — The ability to replace filters extends the masks overall working life, providing maximum protection from vapors, dust, metal fumes, oil and water mists and micro-organisms.
- **NIOSH approved.**

TRUAIR ULTRA VENTED P100 PARTICLE RESPIRATOR

IBS No.	Description	Qty
28074	TruAir Ultra Vented P100 Particle Respirator 5/bx	1

One of the most cost effective, NIOSH-approved, P100 solutions available. TruAir Ultra is loaded with comfort features such as:

- **Conforming facial seal** and individually adjustable, latex-free head straps ensure a custom and secure fit.
- **Standard vent** helps reduce hot air buildup – making breathing easier.
- **Provides P100 protection** for more demanding applications and environments — provides the maximum protection from a disposable respirator.
- **Ideal for welding applications** where a disposable respirator can be used.
- **Provides 99.97% filtration** against particulate aerosols below the Permissible Exposure Limit

Peak Fit Vented & Unvented N95 Particulate Respirators
