

HIGH PERFORMANCE CUTTING TECHNOLOGY

RIPPER

RIPPER COMBINATION CUT / GRIND WHEEL

For Use on Stainless Steel, Sheet Metal, Ferrous & Non-Ferrous Metals & Copper Tubing Applications
IBS No. 62545

Designed with 3 full composite fiber layers that provide enforcement, strength and extremely high side-stability to allow the wheel to perform aggressively like a grinding wheel while also remaining thin enough to cut, giving the user the ability to cut, notch, debur and grind with a single product – which results in fewer wheel changes for reduced labor and inventory costs.

LIMITED TIME OFFER:

Purchase 20 RIPPER Combination Cut Grind Wheels & Receive **YOUR CHOICE:**
