

# CUTTING EDGE

SAVE UP TO 31% ON BI-METAL HOLE SAW KITS & ASSORTMENTS!

## ADVANCED BI-METAL HOLE SAWS

1. **Tooth Set Design** — Optimized to provide fast material removal.
2. **Cap Style** — Reduces runout and vibration.
3. **Premium M42 High Speed Steel Cutting Edge** — 8% Cobalt; provides over 2X the life of other hole saw brands.
4. **Heavy Duty .050 Side Wall** — provides greater stability and added safety.
5. **Side Slot Design** — provides increased leverage and faster, easier slug removal.
6. **Exterior Red Coating** — reduces side wall friction for efficient cutting.

## RAPID CORE EJECTING ARBORS

1. **Eject cores with the push of a button** — NO TOOLS REQUIRED!
2. **Hex shanks won't slip** in the drill chucks.
3. **Torque pins prevent the hole saw from becoming wedged** onto the arbor.

### ADVANCED BI-METAL HOLE SAWS with RAPID CORE EJECTING ARBORS

**IBS No. 784R**

**3/4" - 4" SIZES**

**NOW ONLY \$399<sup>95</sup>**  
reg - \$559<sup>14</sup> - SAVE \$159<sup>19</sup>!

# BLADE RUNNERS

SAVE UP TO 30% ON SAW BLADE ASSORTMENTS!

## BI-METAL RECIPROCATING SAW BLADES

BI-METAL RECIPROCATING SAW BLADES are **extra tough, professional quality** for a wide variety of uses in wood, metal, plastics, fiberglass, plaster and other common building materials.

- Fits all popular reciprocating saw machines.
- 8% Cobalt edge offers more wear resistance
- Made with **shock resistant teeth** that resist stripping
- Available in a **variety of blade lengths and thicknesses** to meet flexibility and rigidity needs for different applications.

### SPECIAL PURPOSE RECIPROCATING SAW BLADES ASSORTMENT IBS No. 393R

ONLY \$199<sup>95</sup>  
reg. \$286<sup>58</sup> SAVE \$86<sup>63</sup>!

### HI-ALLOY RECIPROCATING SAW BLADES ASSORTMENT IBS No. 512P

## ADVANCED EDGE RECIPROCATING SAW BLADES

These heavy duty blades “power through” the toughest applications! This heavy duty blade is perfect for cutting any machinable metal as well as wood, wood composite, plastic or rubber.

- 1" width for more rigidity and beam strength.
- .042" thickness accepts heavier feed pressure.
- Straight tooth pitch give a smooth cutting action.
- Bi-Metal construction provides a long cutting life and heat and wear resistant
