

HYDRAULIC CRIMPER

HI-CAPACITY HYDRAULIC BATTERY TERMINAL CRIMPER

Our High-Capacity Hydraulic Battery Terminal Crimper creates strong mechanical connections with crisp and sharp corners that is easier to use than a large manual crimper. Powerful hydraulic action delivers 70kN (15,736 Lbf) of force for secure crimps. This crimper includes 8 hardened steel die sets from #6 to 4/0 AWG.

- **Powerful hydraulic action delivers nominal force of 10 tons for secure crimps.**
- **Ideal for battery and welding cables.**
- **Creates strong mechanical connections with crisp & sharp corners.**
- **Features non-slip handle and ON/OFF retractor knob.**
- **Includes 8 hardened-steel die sets from #6 to 4/0 AWG.**
