

THERMAL INDICATOR BUTT CONNECTORS

NEW

Other Solder Sleeve
Without Thermal Indicator

NEW Thermal
Indicator Sleeve

Assembled:
Thermal Sleeve Fully Visible

Partially Soldered:
Thermal Sleeve Still Visible

Soldering Complete:
Thermal Sleeve No Longer Visible

The thermal indicator gives the installer an added visual cue of the solder sleeve transforming and flowing into the crimp barrel window. The installer just needs to keep applying heat to the solder connector until the red dye is no longer visible.

- Red dye and clear sleeve provide the **maximum visual cue**.
- Helps **prevent cold solder joints and inferior connections** and ensures maximum tensile strength and connectivity.
- Lead-free solder alloy provides **greater surface tension and stronger termination**.
- "No-Clean" flux on solder sleeve **cleans metals and gives quality solder termination**.
