EASY STRIPPER SELF ADJUSTING WIRE STRIPPER

IBS No. PM014

- Easy stripping - Automatically self-adjusts to strip solid or stranded 10-26 gauge wires.
- Easy cutting - Cuts through 10-22 gauge terminals.
- Easy crimping - Crimps 10-22 gauge terminals.
- Easy Use - Easily handles all wire from 10-26 gauge including solid and stranded wires.

PRIMARY & CROSS-LINK WIRE SPECIAL

CROSS-LINK WIRE

Used where superior resistance to the elements, abrasion, and where extremes in temperature, both high and low, are encountered.

- Made with **bare annealed stranded copper** conductor for a flexible and easy to work with wire.
- Insulated with a **chemically cross-linked polyethylene** making it tougher and more resistant to cuts, abrasions and flame.
- The **tough cross-linked insulation** also resists damage caused by current overload, chemicals and solvents.
- **Meets SAEJ1128 Type SXL.**
- **Voltage Rated** at 60VDC/25VAC or less.
- **Temperature Rated** at -40°F (-40°C) to 257°F (125°C).

PRIMARY WIRE

Used in general purpose, smooth applications, ideal in automotive, wire loom and other wire management system applications.

- **Single conductor copper stranded** primary wire with poly-vinyl chloride insulation provides good flexibility and fading
- **Meets SAE J1128 Type GPT**
- **Voltage Rated** at 60V or less.
- **Temperature Rated** at -40°F (-40°C) to 176°F (80°C).
