IBS, INCORPORATED Cabinets T01

Inventory Control On 13,000 High Quality Maintenance Products

THE SUPPLIES YOU NEED WHERE YOU CAN FIND THEM!

With IBS Inc. cabinets and drawers the right part is always available when and where you need it. No more endless searching through piles of parts and through countless unidentified boxes for that 1/4" lockwasher you purchased last week. With the IBS inventory system you'll always know what you have and what you need to order. IBS' Sales Agent will work with you to specially design your system to meet your companies specific and unique needs.

The IBS Sales Agent will:

- Recommend required storage equipment.
- Identify each part carried.
- Determine inventory needs.
- Set minimum and maximum quantities.
- Check stock on a regular basis.
- Organize and clean bins.

IBS Inventory Control Helps To Eliminate:

- Excessive downtime.
- High maintenance costs.
- Stock-outs.
- Excessive inventories.

Storage Containers

Sure Can Fuel Containers

SureCan fuel cans are **FM Approved**, meet **OSHA & MSHA** standards, **DOT compliant**, **UN approved**, accepted by the **EPA & CARB** and simply are the best fuel cans to use on the job, at home or out playing.

- **Patented spill proof technology** — uses gravity to dispense fuel from the bottom of the can, which means no bending, tipping, slipping or spilling for less mess, less waste and improved safety.
- **Thumb trigger to start, stop and control the flow** to eliminate spills and waste.
- **Flexible rotating nozzle** means no more tipping and easier dispensing.
- **Self-Ventilating action** enables a smooth flow without glugging — easy handling and **NO SPLASHING**.
- **Comfortable grip** is made to fit hands perfectly to make carrying easy for any user and less injury.
- **Child proof caps** for superior safety.
- **Durable — 6-layer, high density polyethylene design** protects vessel from punctures and cracking for extended life.
- **Stainless steel springs, aluminum rivets and viton seals** last longer, resist corrosion, and extend product life for maximum economy and value.

Flexible Extension

Flexible drive bit or drill bit extension holds any 1/4" hex shank bit to access tight or hard to reach areas. Can be used for drilling, driving, tapping or with any rotary tool with a 1/4" hex shank.

- Flexible extension flexes to a full 90 degrees allowing for access in tight and hard to reach areas saving time and money.
- Easy load quick disconnect provides fast and easy changeout of accessories and holds them in place eliminating lost tools.
- Outer cover does not rotate so it can be used safely at any speed and held by hand directing the operation exactly where it needs to be.
- 11" long for optimal reach and control.
- Rated for 13 ft.lbs. of torque makes this a powerful tool for most jobs.
- Can be used with standard 1" insert bits and power bits for added convenience and versatility.
- Standard 1/4" shank fits standard electric and cordless drills or screwdrivers.

1/4" Air Die Grinder

- Designed for tight, tough quarter jobs that require fast metal removal.
- Very maneuverable and perfect for those hard-to-reach areas.
- 1/4" capacity collet with two collet wrenches included.

IBS No.	Description	RPM	HP
69282	1/4" Air Die Grinder	22,000	.33
69283	1/4" Air Die Grinder W/Regulator	25,000	.40

Grinder NOT for use with cut-off wheels over 3" in diameter. Refer to ASTM B7.1-2001

1/4" 90° Angle Air Die Grinder

- Great for tight or angled grinding jobs that an in-line die grinder won't reach.
- Rugged ball-bearing motor provides up to 22,000 RPM.
- Efficient rear exhaust air flow system is preferred by professionals everywhere.
- Lever throttle action and 90° angle provide mobility and control.
- Speed (RPM) 22,000.

IBS No.	Description	RPM	HP
127357	1/4" 90° Angle Air Die Grinder	22,000	.30

Grinder NOT for use with cut-off wheels over 3" in diameter. Refer to ASTM B7.1-2001

Professional Straight Handle Tap Wrench

- Solid construction for long life and ease of use.
- Straight handle design provides greater leverage, especially when using larger diameter taps.
- Ideal for hand tapping.

IBS No.	Description
120922	For Taps #0 to 1/2" (3mm to 12mm)
120923	For Taps #1/4" to 3/4" (6mm to 18mm)

Professional Hex Die Wrench

- Maintains alignment for accurate, straight threading.
- Dies easily lock in position with set screw.

IBS No.	Description
120925	For 1" Hexagon Dies
120926	For 1-7/16 Hexagon Dies

Tapping Tool & Guide

Perfect alignment provided for close tolerances and perpendicularity between the hardened sleeve of the tapper and the inside of the tapping guide.

- Stops tap breakage.
- Carbonitrided jaws for long life.
- Center drill on stem for floating center.
- Sliding T-Wrench Handle.
- 120° Vees on Aligner Body Base to accept round parts.
- Slotted body serves as wrench for tightening when changing jaws.

IBS No.	Description
17050	Tapping Tool & Guide

T-Handle Tap Wrench

- Designed for use with taps and on many other tools to be turned by hand.
- Adjusted and tightened to size by twisting knurled nut.
- Sliding T-Wrench Handle.
- Additional holding jaws are recessed and inside hole for tapping onto small sized taps.
- T-Handle may be extended full length in either direction for more leverage.
- Sliding T-handle has spring tension stop.

IBS No.	Description
120920	For Taps #0 to 1/4" (3mm to 6mm)
120921	For Taps #3/16 to 1/2" (4mm to 12mm)

Transfer Punches

When you need to make identical holes in different pieces of metal, these punches mark the spot. They fit through existing holes and mark the center of the hole in a second workpiece. Punches are made of heat-treated and tempered steel and are approximately 4-7/8" long. Diameter tolerance is ± 0.0005 ".

Punch Sets come in a metal stand for easy storage and organization.

Automatic Center Punch

IBS No. 141700

Automatic Center Punch delivers an automatic spring-driven strike when pressed down against a surface. Marks workpiece with a dimple, providing a starting point that prevents drill bits from wandering. Adjustable tensioner allows you to rotate the body of the center punch to regulate striking force. For use on various metals and woods. Hand operated, no hammer needed. Ball end for greater gripping power and reduced hand fatigue.

Features:

- Automatic spring-driven strike.
- Marks workpiece with a dimple.
- Prevents drill bits from wandering.
- Adjustable tensioner.
- Rotate body of center punch to regulate striking force.
- Use on various metals and woods.
- Hand operated.
- No hammer needed.
- Ball end for greater gripping power.

NES External Rethreading Tools

An essential tool for anyone who deals with nuts and bolts in: maintenance, construction, garages, plumbing, agriculture and engineering.

- Adjusts automatically to thread diameter & pitch.
- No measuring of thread required.
- Can be used on left and right hand threads.
- Can be used on both inch and metric threads.
- Two hardened steel blades (58RC) guided by the existing thread, regroove the damaged area.

Turn handle (A) to raise floating blades (B).

Place the tool over the thread to be repaired.

Turn handle (A) to lower floating blades into grooves of thread and tighten by hand only.

Turn the NES External fastener repair tool in the direction of the arrow.

iNES Internal Rethrading Tap

An essential tool for anyone who deals with nuts and bolts in: maintenance, construction, garages, plumbing, agriculture and engineering.

- Adjusts automatically to thread diameter & pitch.
- No measuring of thread required.
- Can be used on left and right hand threads.
- Can be used on both inch & metric threads.
- Hardened steel blade (62RC) guided by the existing threads, regrooves the damaged area.

Turn knurled knob (K) to fully retract the blade (B) into the housing. Insert iNES tool into the threaded hole or bore to be repaired.

Turn knurled knob (K) to extend blade (B) into the thread groove on an undamaged section and tighten by hand only.

Rotate the iNES internal fastener repair tool by the cross rod, as shown, in the desired direction.

ThreadMate™ Set & External Tool

- Fixes any thread in diameter between M5-M12 (#12 - 1/2") internal and M4-M13 (5/32" - 1/2") external.
- A great solution for outdoor technicians, industrial maintenance, workshops, auto garages, marine use, farmers, auto mechanics, professional and hobby users, etc.
- Small size fits any toolbox.
- External thread repair tool repairs and restores external threads.
- Easy to use set with built-in knob — just set and turn.
- Kit contains replaceable nylon pads for soft metal repair jobs.
- Clean thread in both ways - inside out, or outside in.
- Easy to operate, no special thread knowledge required — works on USS, SAE, Metric, Fine, Coarse, etc.

Spin-It-Out Damaged Screw Removers

The perfect tool for removing stripped and broken or damaged screws. The Spin-It-Out Damaged Screw Remover is extremely easy to operate. A Spin-It-Out extractor bit and a drill motor in reverse make light work of removing stripped out Phillips, Torx, Square Drive, Posi-Drive or even Tri-Wing head screws.

- Removes stripped and broken screws, saving time and money.
- The serrated design on the tip aggressively bites into damaged screws or drills into broken bolts helping to make broken screw removal faster and easier.
- Made of high quality M2 high speed steel for exceptional strength, making them strong enough to drill into hardened bolts.
- Number size corresponds with the number sizes of Phillips Head Screws.

Golden Grip™

INTERNAL PIPE WRENCHES

No more busted knuckles, broken pipes or ruined walls. Golden Grip™ is the world's only self-locking, reversible internal pipe wrench that installs or extracts pipe nipples quickly and easily. Golden Grip is used with ratchets, extensions, and impact wrenches, making it easier to work in tight spaces.

Available in single grip sizes for 1/2" to 3/4" pipe, and double grip sizes ranging from 1" to 2" for Schedule 40 Pipe.

REVOLUTIONARY DESIGN

- Designed and manufactured from heat tempered steel to meet the demanding specifications of the professional tradesman.
- Each tool is individually inspected and assembled to assure the finest quality.
- Use on iron, chrome, and brass pipe - won't scar chrome!
- Self-locking and reversible.
- Will not damage threads.

IBS No.	Description
54115	Removes bolt sizes: 8mm, 10mm, 13mm, 19mm, 5/16, 11/16, & 3/4" in drive size 3/8"

GrabitPro®

Damaged Screw Remover

The GrabitPro quickly and easily removes most damaged screws such as Hex, Phillips, Torx, and Square Drive from wood, plastic or metal up to 3 inches in length. The serrated extracting end of the tool results in greater torque for hard to remove bolts and screws. The design of the shaft make them compatible with "quick change" chuck systems or can be chucked directly into a drill. Good for multiple extractions with a single tool.

FEATURES & BENEFITS

- The two ended design with a drill bit and extractor in one tool eliminates the need for multiple tools saving time and money.
- There is no bolt preparation required, such as grinding, smoothing, cutting, center punching or pre-drilling, making for a faster and more convenient repair.
- Self-centering drill tip eliminates walking or wandering, saving time and frustration.
- Works on jagged, uneven, and rough breaks where standard drills could chip or break.
- Tempered twice for extra hardness proving a tools with a longer life resulting in multiple extractions per tool saving time and money.
- Four (4) piece kit. Removes screw sizes AN4 to AN24, bolt sizes SAE 10 to 12, 1/4", 5/16", and 3/8" (Metric M5 to M10).
- Made in the U.S.A.

IBS No.	Description	Qty	For Screw Sizes
133318	#1 Grabit Pro	1	No. 4 to No. 7
133319	#2 Grabit Pro	1	No 8 to No. 10
133320	#3 Grabit Pro	1	No. 11 to No. 14
133321	#4 Grabit Pro	1	No. 16 to No. 24

OPERATING INSTRUCTIONS

Burnishing

1. Insert GRABIT directly into drill or chuck - burnishing end is showing.
2. Set drill for reverse.
3. Place burnishing end of tool into damaged screw head until smooth.
4. NOTE: Burnishing end is not to be used to drill a hole.

Removing

1. Remove burnishing end from chuck, flip tool, replace into drill chuck — Remover end now showing.
2. Maintain reverse setting.
3. Place Remover end of tool into now smooth screw head.
4. Apply firm downward pressure, drill at slow speed. Apply lowest level of power to the hand drill.
5. Remover end of GRABIT will thread into screw head and remove.

WARNING:

Always wear safety glasses when operating or near power tools. Cutting tools may shatter when broken.

Grabit® Drill-Out

Broken Bolt Extractor Set

Removing stripped screws and bolts can be a frustrating experience, and now there's a solution! This 4 Pc. extractor kit removes broken bolts from as small as 1/4" to 1/2" (6mm-12mm) and can drill up to Grade 8 or 10.9 class fasteners. Each Drill-Out is a drill bit and extractor in one and is uniquely designed to drill into the rough surfaces when bolts break.

SINGLE STEP EXTRACTION FAST & EASY TO USE

A drill bit and extractor in one tool, the DRILL-OUT creates a unique interaction between drill bit and extractor, resulting in maximum impact and break out ability. Broken bolts and studs are removed quickly and easily without damaging the fastener threads.

- **Unique drill tip** allows the tool to stay on center
- **Self centering drill tip** eliminates walking or wandering.
- **No grinding, center punching or pilot hole** required.
- **Works on** jagged, uneven and rough breaks.
- **Tempered twice for extra hardness**; resulting in multiple extractions per tool.
- **Made from the highest quality M2 HSS Steel.**
- **MADE IN THE USA.**

USE IN REVERSE ONLY WHILE DRILLING OR EXTRACTING

DRILLING:

1. **Choose the correct size DRILL-OUT.**
2. **Secure round end in the drill chuck and tighten.**
3. **Thread collet/extractor back against drill chuck.**
4. **Set drill in reverse and begin drilling a the suggested RPM's. (See Figure 1)**
5. **Tempered twice for extra hardness**; resulting in multiple extractions per tool.z
REMEMBER: Hole must be straight & on center. DO NOT allow collet/extractor to move down toward tip while drilling.
6. **Made from the highest quality M2 HSS Steel.**
7. **MADE IN THE USA.**

REMOVE BURS

REPAIR DAMAGED THREADS

WORKS ON A VARIETY OF MATERIALS

Nicholson® Pro Series 4-in-1 Hacksaw Frame

Ideal for making flush, Sideways & Angle Cuts in Metal, Pipe & Tubing

The Nicholson® Pro-Series 4-in-1 hacksaw takes versatility and quality to an entirely new level. Its frame is designed to hold blades at a tension of up to 30,000 psi, for smooth straight cuts, whether in standard, 45° angle, or low profile configurations. And while some other hacksaws have jab saw capability, the unique design of the Nicholson Pro Series accommodates a heavy duty reciprocal saw blade for maximum performance in jab saw applications.

Four Ways to Get the Job Done!

IBS No.	Description	Qty
16411	4-in-1 Hacksaw Frame	1

Reciprocating Saw Handle

- Instantly turn any standard reciprocating saw blade into a hand saw!
- Ergonomic handle with angled setting for additional leverage.
- Quick-twist lock securely holds any standard reciprocating saw blade or any 1/4" hex shank bit.
- Converts to a multi-bit screwdriver — handle stores 6 of the most popular bits: #5 & #6 Slotted, #1 & #2 Phillips and T15 and T20 Torx.
- Use to cut metal, wood, drywall and much more.

IBS No.	Description	Qty
44600	Reciprocating Saw Handle	1

Heavy Duty Metal Scraper

- Protective cap keeps the blade covered until it is in use. The cover then snaps on the back of the scraper to keep from losing or misplacing the cap.
- Ergonomic grip for better control.
- No push-button slide to expose the blade which often causes the blade to slide back when in use.
- Includes one standard straight razor blade for added value and allows the scraper to be used immediately.
- Perfect for scraping labels, decals, paint and adhesive from glass and other surfaces.

IBS No.	Description	Qty
16400	Heavy Duty Metal Scraper	1
16424*	Heavy Duty Extended Scraper 9-1/4"	1

Snips & Shears (P11) Fiskars® PowerArc Utility Snips (8")

- PowerArc™ Utility Snips boast **intelligently curved blades** that alter the angle between the blades to give you over 2X more power, especially during the toughest part of the cut.
- **Offset design** with heavy-duty stainless steel blades can be used to cut materials from above or below, keeping waste material away from your hand.
- An **ergonomic, spring-assisted handle** helps reduce hand fatigue and features Softgrip® for enhanced dexterity and comfort.
- A **serrated edge, extended tang and bolted joint** improve control and durability.

SHARK Heavy Duty Combination Utility Knife

The SHARK Heavy-Duty Combination Utility Knife is two tools in one, a utility knife and a wire cutter, stripper and crimper. With a wide variety of features, this multi-function tool will get the job done faster, safer and easier.

- Rugged, professional grade construction with a comfortable, ergonomic grip.
- Has its own patented RAPID EDGE serrated blades that are built to last. The blades withstand longer use because the cutting friction is handled by five individual cutting surfaces, other blades only have one straight edge.
- Slide 'n' Lock technology allows you to adjust the amount of the blade that is exposed for precise cutting.
- Extra blades can be stored within the holder and a quick change design allows you to efficiently remove an old blade and replace it with a new one.
- When you're ready to work with wire, a spring loaded wire cutter opens easily and cuts comfortably, which locks securely into the body of the knife when you are done. The precision ground stripping holes easily remove insulation from thick 10 to 18 gauge wires.

19457	Drill Chuck

Compact Magnetic Drill Press

Compact with Fixed Drill Motor for Work in Confined Spaces

- **Extremely compact** with ideal power to weight ratio for work at heights and in confined spaces.
- **Hand feed wheel mounts** on either side for use in special situations.
- **Die cast aluminum housing** for strength in the field.
- **Internal motor cable routing** prevents unintended threading or hanging up on the workpiece.
- Internal Cooling.
- **Easy** guide adjustment.
- **Stationary** drill motor.
- **Quill feed spindle** eliminates field maintenance and adjustments provides positive slug ejection.
- 1-5/8 maximum diameter annular cutter.
- 2" maximum drilling depth.

IBS No.	Description
19468	Compact Magnetic Drill Press for 1-3/8 - 2"

Variable Speed / Reversible Magnetic Drill Press

Universal with 2 Speed Gearbox

For Use with 1-9/16 to 2" Annular Cutters

Compact with high functionality for universal use on the construction site and in the workshop.

- Simple and error-proof control concept in the operator's field of view.
- **Double drill motor guides** enable use of the largest core bits.
- **Reversible.**
- **Electronic speed control.**
- **High power motor** with stable speed.
- **High magnetic holding force.**
- Convenient magnetic holding force gauge.
- **Integrated cooling tank.**
- **Hand feed wheel** can be mounted on either side.

19469	Variable Speed / Reversible Magnetic Drill Press

Slugger Cutting Fluid for Mag Drills

- Water soluble concentrate makes up to 10 quarts of cutting fluid.
- Improves surface finish and reduces heat build up when drilling — extending the life of the cutter.
- Specially designed packaging with a sight window ensures proper mixing ratios.

IBS No.	Description
19463	Slugger Cutting Fluid for Mag Drills 1 Quart
19464	Slugger Cutting Fluid for Mag Drills 1 Gallon

Circular Saws (T03)

- Increase Productivity — No milling or deburring with near surgical dry-cut technology.
- Cuts a variety of Metals, Plastic and Wood.
- Cool to the Touch — No waiting for your workpiece to cool down.
- Precise Cutting — with integrated laser sighting system (7-1/4" saw only).

Circular & Chop Saw Blades Sold Separately

7-1/4" CIRCULAR SAW

SPECIFICATIONS	7-1/4"
Part Number	137759
Cutting Capacity	2-1/4"
Weight	15 lbs.
Blade Diameter	7.25"
Arbor	3/4" (20mm)
RPM	3800
Beveling/Mitering	Beveling / 45°
Motor	120V / 1400W
Depth Adjustment	Yes
Chip Cover	1 Cover for Metal
Applications	Pipe, plate, channel, grating, roof decking, silos, emergency rescue.

- Powerful double-insulated motor for continuous loads
- Internally powered laser (no batteries required)
- Spring loaded lower guard
- Integrated chip collection
- Soft Start
- Electric Brake
- Smooth bevel and angle cutting adjustments
- Well balanced handle design for better control

INCLUDES: 1 tool case, 1 blade, 1 wrench, 1 guide plate, 1 safety eyewear, 1 ear protection, 1 instruction manual

DO NOT USE on materials thicker than 3/8" solid for aluminum, 5/16" for mild steel, or 1/4" for solid stainless steel.

14" CIRCULAR SAW

SPECIFICATIONS	14"
Part Number	137760
Cutting Capacity	4-3/4"
Weight	54 lbs.
Blade Diameter	14"
Arbor	1" (25.4mm)
RPM	1300
Beveling/Mitering	Mitering / 45°
Motor	120V / 1800 W
Depth Adjustment	Two Position Vise
Chip Cover	Chip Tray
Applications	Pipe, plate, channel, conduit angle iron, metal studs, rebar, tubing, etc..

- Low speed high torque motor
- High Precision durable steel construction
- Cast aluminum base
- Quick release table/base clamp cuts 0o to 45o
- Smooth bevel and angle cutting adjustments
- Eye protection plate
- Table/base clamp with quick release
- Depth stop
- Well balanced handle design for better control
- Integrated chip collection

INCLUDES: 1 tool case, 1 blade, 1 wrench, 1 guide plate, 1 safety eyewear, 1 ear protection, 1 instruction manual

DO NOT USE on materials thicker than 3/8" solid for aluminum, 5/16" for mild steel, or 1/4" for solid stainless steel.

Excalibur Butane Solder Torch Kit

A self-igniting and cordless Soldering Iron, Hot Air Blower and Butane Torch complete in 1 great tool! The Piezo electric instant ignition system provides a quick start-up in any mode.

Includes a wide range of tips, wrench, sponge and a tube of solder for all your needs.

Includes a handy, impact-resistant travel case for complete mobility, moves easily from the workshop to the field. Case holds everything cleanly for quick, hassle-free storage.

IDEAL for: Electronic System Repair, Automotive, Industrial, Woodworking, Lapidary, Optical, General Maintenance and Professional Repair Jobs.

IBS No.	Description
141060	Excalibur Solder Torch Kit

Microtorch Butane Torch

At only 5-1/4" high with a 2500°F flame, the MICROTORCH is ideal for all types of professional use. Refillable with premium grade butane (IBS No, 95007 - 42 grams). A versatile and handy addition to any professional workshop.

IBS No.	Description
125738	MICROTORCH Butane Torch

Industrial Butane Torch

Powerful, portable, refillable and anti-flare with a flame temperature of over 2500°F, the INDUSTRIAL TORCH is ideal for automotive, plumbing, and professional repair shop use.

Functions & Uses: Lead Gutters, Toughen Metal, Sweat Fittings & Joints, Loosen Bolts, Stripping Paint, Dry Cements, Automotive, Repair, Plumbing, Lay or Remove Tiles & Professional Use.

IBS No.	Description
125739	Industrial Butane Torch

Butane Refill

- Universal tip fuels most leading butane lighters
- Low in non-volatile contaminants which can cause burner valve to clog, affecting flame height and function.

WARNING: USE THIS PRODUCT ONLY AS DIRECTED ON THE PACKAGE.

INTENTIONAL MISUSE BY DELIBERATELY CONCENTRATING AND INHALING THE CONTENTS CAN BE HARMFUL OR FATAL.

KEEP OUT OF REACH OF CHILDREN. DO NOT DISTRIBUTE TO MINORS.

IBS No.	Description
95007	BUTANE Refill 75 ml

Dual Temp Electric Heat Gun

A general purpose heat gun that is ideal for most heating applications, including applying heat shrink tubing, stripping paint, thawing pipes and loosening floor tile.

- 2 temperature settings (750°F & 1000°F) for versatility & various applications.
- 4100 BTU output for removing multiple layers of paint.
- 1200 Watts make this a powerful heat gun.
- Measures 16.5 x 9.8 x 17 inches

IBS No.	Description
141096	Dual Temp Electric Heat Gun
141305	Concentrator Nozzle
141306	Flare Nozzle
141307	Glass Protector Nozzle

Universal Crimping Tool

- Double Compound Action effortlessly exerts maximum force for fast, reliable crimps every time.
- Rotating Dies accommodate all sizes of battery terminals, lugs and connectors eliminating loss or need to store individual dies.
- Diamond Shape Crimp compresses all strands together to form a solid mass of copper. This assures a low resistance connection every time.
- Easy To Use Reference Chart located on tool eliminates guess work enabling competitive products to be crimped accurately.
- Wire Range : #8 Gauge through 250 MCM.

IBS No.	Description
B0283	Universal Crimping Tool

High Capacity Hydraulic Crimper

High Capacity Hydraulic Crimper creates strong mechanical connections with crisp and sharp corners. The powerful hydraulic action delivers 70kN (15,736 Lbf) of force for **secure crimps**. This crimper includes 8 hardened steel die sets, and is ideal for battery and welding cables.

- Powerful hydraulic action delivers nominal force of 10 tons for secure crimps.
- Ideal for battery and welding cables.
- Creates strong mechanical connections with crisp and sharp corners.
- Features non-slip handle and ON/OFF retractor knob for safety.
- Includes 8 hardened-steel die sets from #6 to 4/0 AWG.

IBS No.	Description	Qty
141981	High Capacity Hydraulic Crimper	1

Wire Crimp Tool

A versatile, heavy-duty tool, made of .140" high-strength, heat-treated carbon steel. It is lightweight without sacrificing strength. It handles a variety of terminal and connector styles, including FLAGS, closed-end connectors, crimp sleeves and standard parts, insulated and non-insulated, over a broad range of 26-6 AWG.

- Anvil Type wire cutter.
- Crimp dies for #26-10 AWG insulated terminals, and connectors, and closed-end connectors.
- Cuts & re-threads 4-40, 6-32, 8-32, 10-24, and 10-32 machine screws.
- Crimp die for #12-6 AWG non-insulated terminals, connectors, FLAGS, quickslides, crimp sleeves and high temperature terminals.
- Crimp die for insulated terminals and butt connectors, wire sizes #8-6 AWG.
- Crimp die for #26-14 AWG non-insulated terminals, connectors, FLAGS, quick-slides and crimp sleeves.
- Wire-stripping stations.
- Strip length guide.
- Textured, cushioned grips.

IBS No.	Description	Qty
TH450	Wire Crimp Tool	1

Battery End Power Cleaning Brushes (P25 & T03)

These brushes remove and polish corroded battery posts to ensure optimal conductivity. Brushes fit easily and securely in any electric, cordless or pneumatic drill.

- Cleans & polishes up to 1,000 battery posts.
- Heavy duty injected molded housing.
- Resilient steel bristles.
- Accepts 1/4" hex shank. Fits all drills or cordless screwdrivers.
- Acceptable RPM rating between 400-800

Ratcheting Crimp Tool Sets

Available with 4 Additional Dies for Crimping A Variety of Terminals with One Tool!

- 4 Crimp Nests: 8 AWG Red; 12-10 AWG Yellow; 16-14 AWG Blue; 22-18 AWG Red
- Mating mechanism prevents jaws from slipping or misalignment.
- Long handles make it easier to crimp - Less force required.
- Easy-to-use and understand release mechanism.
- Ergonomic design to initiate the crimp process.

Dies Available:

- For open barrel terminals: 20GA thru 10GA
- For Insulated Closed End Connectors
- For Double Crimp Insulated Terminals: 24GA thru 10GA
- For Insulated Flag Terminals

**CENTER PUNCH BAND-IT CLAMP
LIGHT DUTY HAND TOOL**

IBS No.	Description	Qty
60150	Center Punch Band-It Clamp Light Duty Hand Tool	1

BAND-IT Center Punch Clamps Light Duty Hand Tool Instructions

1. Tool is designed specifically for 3/8" and 5/8" center punch clamps only. Insert clamp in tool and then insert wrench assembly. If you prefer, install wrench assembly before clamp is inserted. Slot must be aligned with clamp tail.

2. Start "pumping ratchet wrench forward until proper tension has been applied.

3. Place punch on clamp and while holding tension with ratchet wrench, lock clamp by striking punch once or more with hammer, depending on object being clamped.

4. While holding tension with wrench, pivot tool up against buckle, then backward several times to break off clamp tail.

5. To loosen clamp tail, wind ratchet wrench until tail is free. Remove ratchet wrench assembly and clamp tail.

**CENTER PUNCH BAND-IT CLAMP
HEAVY DUTY HAND TOOL**

IBS No.	Description	Qty
60149	Center Punch Band-It Clamp T300 Heavy Duty Hand Tool	1

BAND-IT Center Punch Clamps Heavy Duty Hand Tool Instructions

1. Push tension handle all the way forward. Insert BAND-IT Center punch clamp tail and push all the way into tool.

2. Tighten the clamp with short downward strokes. Tension handle should be in down position at completion of tightening clamp.

3. Holding tension down, lock clamp by hitting punch at least twice with a 2 lb. mallet.

4. Hold work-piece and pivot the tool back and forth to break off clamp tail. Remove tail from tool by operating tension handle. When tail has moved through holding dog, raise tension handle and pull tail free.

Cable Tie Gun (Q04) 3/32" - 3/16" Capacity

- **Capacity:** 3/32-Inch (2.4mm) to 3/16-Inch (4.8mm) wide and up to 1/16-Inch (1.58mm) thick — **works on 18 lb. to 50 lb. cable ties.**
- **Generates 18-50 Pounds** of tensile strength for a firm and snug bundle.
- **Flush cuts end of cable tie** for a clean and smooth end, eliminating the hazardous, sharp edges left behind with regular tie ends.
- **Adjustable bundling pressure**, allowing it to be used on various types of materials without damaging the material.
- Body is **constructed of high impact nylon and fiberglass** for strength and durability.
- Not compatible with stainless steel ties.

IBS No.	Description	Qty
141416	Cable Tie Gun	1

Mini Cable Tie Gun

- Secures and cuts cable ties.
- 18-50 lbs tensile strength.

ALWAYS WEAR SAFETY GLASSES
DO NOT OVER-TIGHTEN

Can-Gun

Aerosol Trigger Attachment

- Minimizes user fatigue associated with using aerosol nozzles.
- Consistent pressure means less clogging and even application.
- Made of durable plastic for long life.
- Easy to attach, easy to remove, fits most aerosol cans.
- Balances can for easy, fatigue free application — great for big jobs.
- Handle eliminates finger on nozzle and means less skin irritation and mess due to chemical over-spray.

IBS No.	Description	Qty
74200	Can Gun Aerosol Trigger Attachment	1

IBS No.	Description	Qty
25703	Mini Grease Gun	1

LockNLube Coupler

The LockNLube Coupler has a unique sliding sleeve, activated by thumb lever. The sleeve either locks the four spring-steel jaws onto the zerk fitting or releases the jaws from the zerk. No hands are needed to align or hold the coupler in place while greasing. The locked connection is positive and rigid, preventing the coupler from coming loose and breaking the leakproof seal.

- Works with all grease gun types: pneumatic, manual and electric.
- Works on all DIN and SAE specification zerks.
- Fits 1/8" pipe thread.
- Works with all grease gun manufacturers.
- No need to hold while greasing. Lock-on and free up both hands to operate the grease gun. — simply depress the trigger to release, even under pressure.
- Durable nitrile rubber seal for longevity under high pressure.
- Four hardened spring steel jaws are resilient under high pressure.
- Check valve to reduce leakage.
- LOCK N' LUBE XL with a longer barrel has a 3.6" effective reach.

IBS No.	Description	Qty
5855	LockNLube Locking Grease Coupler	1
5856	LockNLube XL Locking Grease Coupler	1

Locking Dual Wheel Adapter

A quick & easy way to inflate dual wheels. This new air chuck adapter features a two-jaw locking design and patented remote actuator. Easily attach and disconnect with the actuator — no need to reach in to disconnect.

The Dual Locking Head allows you to push onto valves facing towards you, or pull onto the valves facing away from you.

- Overall Length: 15.5 in. (40cm).
- Maximum pressure: 150 PSI (10.3 BAR)

IBS No.	Description	Qty
5859	Dual Wheel Locking Air Chuck Closed-15.5"	1

LockNFlate Air Chucks

DEPRESS THE THUMB LEVER & PUSH ON THE TIRE VALVE, RELEASE THE LEVER TO SECURE THE AIR CHUCK & CREATE A LEAK-FREE CONNECTION!

LOCKS ON STAYS ON WON'T LEAK!

SLIDING SLEEVE SECURELY LOCKS THE AIR CHUCK ONTO THE SHRADER VALVE

HARDENED STEEL COLLET FITS ALL SHRADER VALVES RATED TO 150 PSI

Also available in 90° for Tight Spaces

SECURE - HANDS-FREE - LEAK-FREE

- **REVOLUTIONARY DESIGN** six steel jaws lock onto any Schrader valve to create a secure, hands free connection.
- **1/4" NPT THREAD SIZE** compatible with most standard air hoses.
- **HARDENED STEEL COLLET** Fits ALL standard Schrader valves (VG8 /8V1 valve threads).
- **RATED TO 150 PSI** Suitable for garage & Industrial systems, auto and manual tire inflators, portable pressure gauges & constant pressure systems.
- **HEAVY DUTY CONSTRUCTION** is built to last and stand up to everyday use even in the busiest tire shops, service bays and garages.
- **DURABLE, SPRING LOADED TPU SEAL** Inflates tires with or without the core valve in place .

Rivet Nut Gun

This thin sheet setting tool has been designed to enable threaded nut inserts to be threaded easily by hand. Invaluable to maintenance engineers for on the spot repairs.

- Designed for the quick manual insertion of permanent load bearing threads in materials from 0.20" to 0.128."
- Simple set up and easy uniform stroke allows a nutsert to be set in thin sheet materials without causing surface damage.
- A comprehensive range of mandrels and nosepieces are available.

RIVET NUT GUN MANDRELS & NOSEPIECES

Stainless Steel	NO	YES	NO	NO

Heavy Duty Rivet Tool

The **HP-2** is the number one selling hand rivet tool in the industry. Known and trusted for durability, quality and performance, the HP-2 is often copied but never duplicated. Its square shoulder fulcrum pin of cold-formed heat-treated steel prevents pin rotation that can elongate the engaging holes and cause premature tool failure in imitation tools. Other quality features include: precision die-cast, high-strength aluminum alloy body; drop-forged carbon steel upper handle; and thick, cushion molded vinyl grips for comfort. The HP-2 sets up to 3/16" steel rivets and comes with four mounted nosepieces (3/32", 1/8", 5/32" and 3/16") and a service wrench.

- **Square shoulder fulcrum pin of cold-formed heat-treated steel** prevents pin rotation that can elongate the engaging holes, a leading cause of premature tool failure in imitations – fewer failures means less rework time, faster installations – equals time and money savings!
- **Precision die-cast, high-strength aluminum alloy body** makes this tool super durable while keeping it light-weight – means longer life and comfortable to use.
- **Drop-forged steel upper handle gives this tool added strength** for extended service life.
- **Thick cushion-molded vinyl grips for comfort** means better productivity and less likely for fatigue and injury.
- **Sets steel and aluminum rivets** from 3/32" to 3/16", and stainless steel up to 5/32"

IBS No.	Description
HP-2	Heavy Duty Rivet Tool

Big Daddy Manual Rivet Tool

The Big Daddy is a **versatile and powerful hand riveter**, taking the hard work out of setting large diameter blind rivets.

- **Extra-long handles provide excellent leverage** and permit working a foot beyond natural reach.
- **Patented bearing design, self-adjusting two-piece jaws and single-unit body construction** with a steel insert to provide stronger threads for the nosepieces included.
- **Double gear reduction system** easily sets from 1/8" to 1/4" diameter rivets in all alloys.
- **One piece collet case eliminates the need to adjust the tool** when changing rivet diameters.
- **5/32", 3/16" and 1/4" nosepieces**, which are stored in the body
- Weighs 3.75 lbs

ReelTek™

Air / Water Reels for Light Industrial Use

A new, lighter spring-driven hose reel designed for applications that are less demanding, yet require a product that can withstand industrial use. ReelTek's hybrid design incorporates industrial-grade steel and composite materials to virtually eliminate corrosion.

Easy-to-install and maintain, ReelTek™ conveniently keeps hoses organized for a more efficient, safer work area. Simply pull out the hose to the desired length, lock into position during use, and retract when finished. Hoses stored on reel last five times longer, stay out-of-sight, and out-of-the-way.

REELTEK™ HOSE & REEL ASSEMBLIES

IBS No.	Description	Qty
131272	Reel for 3/8" x 50' Hose 3/8" x 50 Flexeel Hose Rubber Stopper	1

ACCESSORIES

IBS No.	Description	Qty
131186	Rubber Stopper	1

Installation . . . Easy as 1, 2, 3

Step 1

Locate stud & layout bolt hole pattern of the reel. Drill pilot holes into the stud

Step 2

Thread lag screws into pilot holes.

Step 3

Hang reel onto lag screws. Securely tighten lag screws. Ready to use.

ReelTek is ideal for . . .

- Light industrial
- Air-powered tools
- Assembly lines
- Machine shops
- Maintenance shops
- Auto / truck repair
- Auto Paint & Body
- Farm & ranch
- Woodworking
- Garden shops
- Home workshops
- Many more uses

Hose Crimper

- Provides production capability for crimping standard hose.
- Gives "big tool" crimping advantages at just a fraction of the cost.
- Comes with 5 dies to crimp 1/4"-1" braid to 3/8" - 2" braid.
- Die Sizes: 5/8" 37/64" 17/32" 31/64" 11/16"
- Rugged Construction: High strength ductile iron casting.
- Self-contained & Portable: All dies in one place, ready for use.
- One-hand operation: Positive camming action allows for good leverage at end of lever stroke.

IBS No.	Description	Qty
AM855	Hose Crimper	1

Hose & Tubing Cutter

CUTS FLEXIBLE HOSE UP TO 1-1/4"

- Cleanly cuts heater hoses, fuel lines and other types of flexible hose up to 1-1/4".
- Stainless steel blade is reversible for double the life.
- Plier is made of glass-filled nylon for strength.

IBS No.	Description
11420	Hose & Tubing Cutter
11450	Replacement Blades (1)

Hydraulic Crimper

DROP SHIPS FROM MANUFACTURER

- Heavy duty 60+ ton capacity
- 1/8 to 1-1/4 6-wire capability
- Fully adjustable crimp settings
- 0.125 to 2.75 crimp capability
- Auto micro-switch shut-off
- Good crimp visibility
- Comes with 5 dies standard
- Includes die holder

Indexing Pry Bars

Designed to improve access in tight applications, the head of the pry bars can be adjusted to 14 different positions, offering more than 180° of angle. The new, innovative indexing feature allows the user to gain more leverage. The 8" Indexing Pry Bar can also function as a seal pick for removing engine and axle drive seals. In addition to the fixed length Indexing Pry Bars, an expandable version is available that extends from 18" to 29" .
