#28 - #100 T-Bolt Hose Clamp Asst  
IBS No. 220TB — 5 Items • 14 Pcs  
**NOW ONLY \$169<sup>95</sup>** reg. \$233<sup>70</sup>

## Constant Torque Liner Clamps

220CT

- Energy stored in **compressed Belleville springs** controls automatic clamp adjustment to provide a reliable and accurate constant tight fit.
- **Automatically adjusts** to increase or decrease the diameter to compensate for changes in operation or temperature.
- **Smooth inner liner** protects soft or silicone hose from damage, extrusion or shear.
- Ideal for systems that cannot be re-tightened or with high temperature fluctuations that expand and contract.

## T-Bolt Clamps

220TB

- **Floating bridge** for equalized clamp load and high clamping strength that prevents leakage in heavy-duty applications.
- Ideal for water/air intake hose Systems, water pump suction/discharge hose, irrigation line connections.
- **Smooth inner band** protects hose.
- For industrial, automotive and fleet applications.
- **High strength stainless steel band** and one piece stainless steel trunion, with plated carbon steel bolt and nylon insert locknut
- Meets SAE specifications J1508.

## Aero-Seal Clamps

120P, 125P, 220P & 225P

- **Heavy-duty four-piece Quadra-lock** construction enables more tightening torque to be delivered to the band perforations.
- Ideal for heavy duty industrial applications.
- All **stainless steel**.

## Liner Clamps

120LP & 220LP

- Liner band is an integral extension of the band.
- Liner is **not riveted or welded**.
- **Protects silicone and other soft surface hose** from damage caused by extrusion or shearing through the band slots.
- Liner clamps are designed to give a true concentric seal.
- All **stainless steel**.

## Center Punch Band-It Clamps

122P & 222P

- **Center Punch Band-it** style hose clamps provide reliable clamping action for use in all hose clamp applications.
- Ideal for retaining hose couplings in industrial hose applications.
- **Double wrapped steel band** provides a tight, secure and permanent clamp.
- **Fast and easy installation** using a hand, center punch tool (PN 60150).
- **Low profile locking buckle** prevents catching or snagging.

## Two Ear Hose Clamps

756R

- Ideal for industrial use and heavily vibrating equipment.
- **One piece design** provides a positive, tamper-proof seal without damaging the hose.
- **Two Ear clamping** assures adequate closure and compensates for tolerance variations in hose sizes.
- **Suitable for a wide variety of materials** such as rubber hose, plastic tubing, coaxial and electrical cable, rope and other materials.
- **Easy to apply** - just slide on and crimp.
- **Zinc plated carbon steel band** for strength and corrosion resistance.

## Economy Clamps

262R

- 1/2" band clamps are suitable for most common home and automotive applications.
- Screw: 5/16" hex head (Mini #67004 & #67008 1/4" hex head), 410 stainless steel. Band & housing: 1/2" design, 201/301 stainless steel
