

# NEW! INTRO OFFER

## Features:

- **Industrial-grade polyurethane bungee balls are made with solid polyurethane** (no cloth or rubber) that **resists breaking, rotting, cracking, or becoming brittle**. Unlike traditional materials, it maintains reliable elasticity even in extreme conditions for long-term durability and safety.
- **Polyurethane stretches up to twice its original length**, providing a secure hold with fewer bungee balls required. This reduces the need to stock multiple sizes and simplifies inventory and storage.
- **Designed to outperform rubber and cloth**, polyurethane withstands UV exposure, extreme heat and cold, water, ozone, diesel fuel, oil, and most household chemicals, making it dependable for both indoor and outdoor applications.
- **Proudly Made in the USA**, these bungee balls **retain their color and stretch over time**, delivering consistent performance without cracking or failure.

## Applications:

- Securing tarps, canopies, etc.
- Cargo tie-downs for trucks, trailers, and utility vehicles
- Marine and boating applications
- Agricultural and farm equipment fastening
- Construction site bundling and temporary securing
- Signage, banners, and event setup
- Organizing tools, cords, and outdoor gear

## BUNGEE BALL BUNDLE

**ONLY \$89<sup>95</sup>**

Reg. \$97<sup>32</sup> - Save \$7<sup>37</sup>

**SAVE 8%!**

**IBS No. 863P**

**Contains 4 of Each Bungee Ball Size (6", 9", 12")**

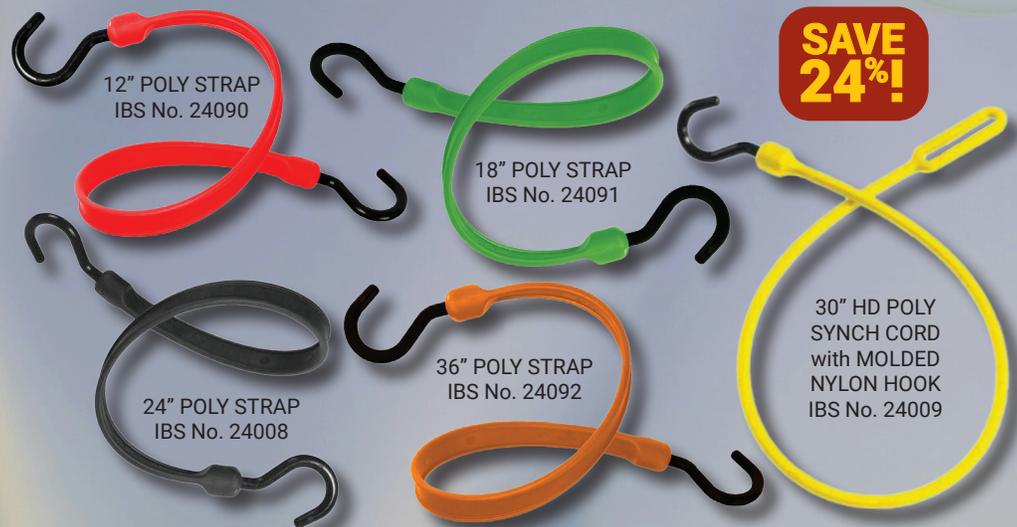

# YOUR CHOICE — SAVE UP TO 27%! POLYURETHANE STRAPS

- **Industrial grade polyurethane rope** (no cloth or elastic) **will not break, rot, or become brittle** like rubber or cloth maintains its stretch even under extreme conditions for a safer and longer lasting strap — saving time and money.
- **Polyurethane has a long, safe stretch of 2 times its length** for a superior reach and hold for all tie down and strapping needs — requiring fewer lengths, reducing inventory and storage of a variety of strap lengths.
- **Polyurethane has better performance under extreme weather conditions** such as UV, hot and cold temp variations, water, ozone than rubber and cloth — even performs when exposed to diesel fuel, oil and most household chemicals — making this a superior cord for all areas — saving time and money.
- **Fixed strap lengths** are made with **fiberglass-filled nylon hooks** that are over molded into cord for **superior performance and durability** with the same **2X the stretch** and a hook break rating of 180 lbs. for maximum safety — keeping workers safe from snap back and injury.
- **Molded-on nylon end hooks** won't mar or scratch like metal hooks — providing a strap that is safer to use on all materials, keeping vehicles and other areas where straps are used safe from damage.
- **Made in the USA.**
- **Won't break, crack or become brittle.**
- **They retain their color, never lose their strength and never lose their stretch**, stretching up to twice their original length.

## POLY STRAP VARIETY PACK

Contains 2 of Each Standard Poly Strap PLUS 1 Poly Synch Cord  
IBS No. 862P

ONLY \$99<sup>95</sup> — regularly \$131<sup>40</sup> — SAVE \$31<sup>45</sup>

## POLY ROPE SPOOL & HOOKS

Poly Rope 50' Spool PLUS a 10 Pack of Quick-Attach Hooks!  
IBS No. 587P

ONLY \$129<sup>95</sup> — regularly \$178<sup>99</sup> — SAVE \$49<sup>04</sup>
