

DON'T GUESS - GRIND WITH VISION

FREE FLIP OUT GRINDER NUT WITH PURCHASE OF 10 CLEAR-CUT DISCS

CLEAR-CUT

Zirconium Power Flaps

CLEAR-CUT Zirconium Power Flaps represent a truly unique concept in grinding technology – **transparent operation**. Thanks to a clever design that features **3 recesses** in the disc, the CLEAR-CUT Zirconium Power Flap **becomes transparent** during rotation, which guarantees a **free view** of the workpiece. The user monitors the results without having to put the machine down and stock removal is more easily monitored to reduce costly processing errors.

PRODUCT FEATURES:

- Free view of the work piece
- High stock removal
- Cool grinding
- Low vibration
- Comfortable grinding performance
- Low noise

USE ON:

- Rust & acid-proofed steels
- Hardox
- High tensile sheets
- Tool steel
- Structured steel
- Non-ferrous metals
- Wood, varnish, filler
- Plastics
- GFK

APPLICATIONS:

- Galvanized Parts
- Flat iron
- Welding Seams
- Bur removal
- Leveling
- Rust removal
- Cleaning
- Edge grinding
- Surface grinding
