

WIRE HARNESS TAPE

NOW SAVE \$24

WIRE HARNESS CLOTH ELECTRICAL TAPE

IBS No. 145245 – 3/4" X 82'

- **High temperature resistance:** withstands high temperatures (302F) and demanding environmental conditions and temperature extremes down to -40F.
- **High abrasion resistance:** protects wires from rubbing against each other or other parts of the vehicle's engine compartment
- **Flexibility:** the cloth backing is smooth and flexible, allowing it to conform to uneven surfaces, making it ideal for wrapping around bundles of wires.
- **Strong adhesive:** advanced acrylic adhesive adheres well and resists "flagging" (peeling at the edges) and compatible with halogen-free insulation materials.
- **Flame-retardant:** crucial for safety in automotive applications and engine compartments.
- **Durable:** resistant to tearing, aging, UV, and other environmental influences.
- **Applications:** primarily used in the automotive industry for bundling and protecting wire harnesses, but the high-strength and flexibility make it suitable for other demanding applications as well.

PREMIUM+ BLACK VINYL ELECTRICAL TAPE

IBS No. 6132 – 3/4" X 66'

A 7 mil (0,18mm) all weather, professional grade, pressure sensitive vinyl tape which gives excellent performance over a wide range of temperatures. Cold and weather resistant. Can be used as primary insulation for splices at not more than 600 Volts. Use as protective outer jacket over splices and all low temperature applications. Lead, Mercury, Cadmium and hexavalent Chromium free. Meets the requirements of 2000/53/EC and RoHS 2011/65/EU Directives and meets ASTM D 3005 (Type1), EN 60454-3-1 (Type 11), UL-510 and CSA C22.2 No. 197.

NOW: 99⁹⁵ Reg: 134³⁰ **Save: 26%**

SUPER BLACK VINYL ELECTRICAL TAPE

IBS No. 6143 – 3/4" X 66'

An 8.5 mil (0,21mm) all weather, professional grade, pressure sensitive vinyl tape that provides heavier thickness for added mechanical and electrical protection. Cold and weather resistant. Flame retardant. Can be used as primary insulation for splices at not more than 600 Volts. Excellent protective jacket over all types of splices. Lead, Mercury, Cadmium and hexavalent Chromium free. Inhibits corrosion of electrical conductors. For indoor or outdoor applications. Meets the requirements of 2000/53/EC and RoHS 2011/65/EU Directives and meets ASTM D 3005 (Type1), EN 60454-3-1 (Type 11), UL-510 and CSA C22.2 No. 197.

SCOTCH® SUPER 33+ VINYL ELECTRICAL TAPE

IBS No. 3M6133 – 3/4" X 76'

A 7 mil thick, premium grade tape that provides electrical insulation for all wires and cables rated up to 600V. The flame retardant tape withstands a temperature range of 0 to 221 °F (18 to 105 °C). It is compatible with solid dielectric cable insulation, synthetic cable insulations, jackets and splicing compounds. It provides a protective jacket for high voltage cable splices. This electrical tape is highly resistant to UV rays, abrasion, moisture, alkalis, solvents and many acids. UL Listed, CSA Certified and RoHS 2011/65/EU Compliant.

NOW: 129⁹⁵ Reg: 183⁴⁰ **Save: 29%**

SCOTCH® VINYL ELECTRICAL TAPE SUPER 88

IBS No. 3M6143 – 3/4" X 66'

A 8.5 mil thick, premium grade, all weather tape that is designed to provide a protective jacket and primary electrical insulation for splices up to 600V. The flame retardant tape withstands a temperature range of 0 to 221 °F (18 to 105 °C). This tape is highly resistant to UV rays, moisture, alkalis, acids, corrosion and varying weather conditions. The tape is compatible with solid dielectric cable insulations, as well as epoxy and polyurethane resins. UL Listed, CSA Certified and RoHS 2011/65/EU Compliant.

SILICONE SEALING TAPE ASSORTMENT

IBS No. 743R — 8 Items • 8 Pcs

Say goodbye to weak, messy tapes that fail when you need them most. Self-fusing silicone tape creates a permanent, waterproof, airtight bond with zero sticky adhesives — so it works every time, on almost anything.

- **Self-Fusing Technology:** Unlike ordinary adhesive tapes, this silicone tape bonds to itself when stretched and wrapped — forming a strong, unified seal without glue or sticky backing.
- **Extreme Temperature Performance:** Works in temperatures from -76 to +500°F, making it ideal for hot engines, outdoor repairs, harsh weather, and industrial applications alike.
- **Superior Electrical Insulation:** Provides insulation far beyond standard electrical tape — 400 volts/mil (can reach up to 8,000 volts per layer) — delivering peace of mind for electrical and wiring fixes.
- **Waterproof & Weatherproof:** Forms an airtight, watertight barrier instantly — even underwater — perfect for plumbing, hoses, wiring, and outdoor equipment.
- **Highly Flexible & Stretchable:** Stretches over 300% to conform to curves, corners, and irregular shapes — wrapping tightly for an inseparable bond.
- **Ultra-Resistant:** Durable silicone resists UV, oil, salt, chemicals, corrosion, and extreme conditions that regular tapes can't handle.
- **Clean & Easy Removal:** No adhesive means no sticky residue, so when it's time to adjust or remove, surfaces stay clean.
- **Applications:** Weatherproofing, Electrical Insulation, Bundling & Fastening, Sector/Color ID, Corrosion Protection, Animal Mitigation, Leak Sealing, Vibration Reduction, Masking, Encapsulation, Contamination Protection, Chafe Prevention.
