

STRIPPING IS EASY

NOW WITH A NEW SAFER FORMULA

POWER STRIPPER

Paint & Coating Remover

POWER STRIPPER is a gel-based paint remover. The **methylene chloride free formula** is a safer alternative to paint removal. **Penetrates deep** to remove paint, lacquer, shellac, enamel, varnish, labels, carbon deposits, silicone, simulated wood paneling and similar materials from all surfaces. **Washes off with water or solvent**. Safe to use on metal, brick, ceramic, wood and tile surfaces. **Clings to all vertical surfaces**.

- **Deep-penetrating gel formula** works beneath paint and coatings to break their bond with the surface removing stubborn finishes faster, reducing labor and downtime.
- **Removes paint, lacquer, shellac, enamel, varnish, and sealers** attacking multiple coating types with one product eliminating the need to stock several specialty removers.
- **Thick gel formula** clings to vertical surfaces to stay put and maximize contact time and reduce product waste.
- **Methylene chloride-free formula**; a safer alternative for maintenance personnel.
- **Safe for use on metal, brick, ceramic, wood, tile, concrete, and masonry** - One product handles numerous stripping applications.
- **Effective on labels, adhesives, carbon deposits, and silicone residues**; one versatile product means less inventory!
- **Washes away with water or solvent** after use making cleanup fast and easy to reduce time and return equipment to service faster.

FOR USE ON:

Metal Parts, Plaster, Concrete, Tile, Glass, Ceramic, Engine Parts, Valve Seals, Paint Guns, Paper, Wood, Stone, Masonry And Cylinders.

Methylene Chloride Free
