CONTRACTOR GRADE + SAFETY FEATURES = LESS FAILURE

- **Superior cold-weather PVC jacket** provides flexibility in freezing temperatures as low as -40°F, making unraveling and storing cords easier and faster.
- **High visibility color** improves safety and productivity, helps prevent on the job injuries — saving time and money.
- **10 & 12 GA wire** provides maximum connectivity that can handle large, industrial tools without overheating or tripping breakers.

DUAL GLOW

- **Features CGM (Continuous Current & Ground Monitoring)**, which means each female plug has a green neon light indicating ground continuity — an OSHA Safety Requirement.
- **Male plugs feature amber light power indicators**, confirming there is power in the cord for added safety.
- **2-Way, non-slip finger grips** make connecting easier and prevent faulty connections.

PRO-LOCK

- **Features the exclusive PRO-LOCK CONNECTOR** — Click to lock up to 80lbs tensile strength means ends won't pull apart.
- **Quick release collar** means Standard 3 prong 15A-125V won't pull apart - providing a safe and continuous connection.
- Male and female plugs feature **power-check lighted ends** — indicating the presence of power in the cords for a safer use.
